KITTEN *Tales*

RESCUE

This year was full of challenges and rewards. Getting all the regulatory paperwork and initial nonprofit infrastructure in place to start Kitten Tales Rescue proved to be an opportunity for developing new skills.

We were able to positively impact about twenty kittens this year, and spay/neuter parents of the kittens entered into the foster program, when possible.

As we did not have our 501(c)3 status prior to the end of the year we did not solicit donations from the public. This year we should be able to expand our help as funding sources will be more accessible. We will be applying for available grants and attempt to partner with the PetCo Love charity for more visibility and adoption access.

As we review our success in 2021, your dedication and support of Kitten Tales Rescue allowed us to help positively impact the kittens in the following report.

Looking forward to 2022, I am grateful to have your support for our rescue. Together we will be able to help more kittens this upcoming year.

Amanda Wiren
President

ORPAHN KITTEN CARE
Todd & Copper

Fox and Hound Babies

Todd and Copper were orphaned by their mother on day one. They received around the clock care during the first few weeks of life and have been adopted into loving homes.

ORPAHN KITTEN CARE

Moana, Te Fiti, & Tala

Moana Babies

Moana, Te Fiti, and Tala were abandoned in an orchard at four weeks old. They were brought to our rescue in poor health and showing signs of injury. They are now happily adopted into loving homes.

NEONATAL KITTEN CARE

*Thackery, Tarant,
Cheshire, Bayard,
Absolem, Alice, & Dinah*

Alice in Wonderland Babies
Thackery, Tarrant, Absolem, Cheshire, Bayard, Alice, and Dinah were brought to our group as the second litter from a previous foster group. Momma was successfully spay following kitten entry to the foster program.

NEONATAL KITTEN CARE

*Rapunzel, Maximus,
Rider, Pascal, & Frederic*

Tangled Babies

Rapunzel, Maximus, Rider, and Pascal came to our rescue at four weeks old. Momma was spayed following kitten acceptance, ensuring this would be her last litter. Frederic was found from a feral colony and needed some help adapting to domestic life.

ABUSED KITTEN CARE

Abraham

Aristocat Kitten

Abraham was found glued to a dumpster after being stuck in a rat glue trap. We worked with him to overcome his mistrust and fear following his abuse and he has become a wonderful social kitten. He has been a great help when working with other fosters in our program.

TNR - Trap Neuter Release

Reducing kitten overpopulation by spaying/neutering community cats or parents of kittens accepted into the foster program. This may be an area we can increase our efforts as funds become available.

A close-up photograph of two cats. The cat on the left is grey and white, with its eyes closed and a content expression. The cat on the right is white with brown patches, leaning its head against the grey and white cat. The background is a tiled floor with a pattern of tan and brown tiles. The overall mood is warm and affectionate.

THANK YOU

FOR YOUR SUPPORT
