RESCUE

This year was filled with struggles and success. We were able to help more kittens than our initial target and even with a number of medical situations had a great overall year. We obtained our IRS nonprofit determination letter and completed our required regulatory registrations.

We were able to positively impact over eighty kittens this year, and spay/neuter parents of the kittens entered into the foster program, when possible.

As we obtained our 501(c)3 status we were able to receive public support from our community. In general 2022 was a slow adoption year and we carried over more kittens than anticipated. The economy probably played a big role in the reduction as inflation made a significant impact on our economy.

As we review our success in 2022, your dedication and support of Kitten Tales Rescue allowed us to help positively impact the kittens in the following report.

Looking forward to 2023, I am grateful to have your support for our rescue. Together we will be able to help more kittens this upcoming year.

TNR - Trap Neuter Release

Reducing kitten overpopulation by spaying/neutering community cats or parents of kittens accepted into the foster program. This may be an area we can increase our efforts as funds become available.
